Dear Members:

The enclosed article is a sample of the kind of work that the mimeographing machine turns out and if you need copies of your lineup and other publicity on your team please forward the data to me and I'll gladly make you up as many copies as you may need.

We can solve our problem with the Negro Press by coming to some understanding on financial matters with them. That is the only thing that they are interested in. They had a meeting on us and that is one of the things they decided upon. They like Art Carter alright but he is getting paid and benefiting financially and the other are supposedly getting nothing.

Dan Hurley informs me that they intend to knock the All Star Game and the East West Classic as well. So keep an eye on the papers. The principals are Dan Hurley, Wendell Smith, Sam Lacy, Frank Young, Len Graves and a few others.

Very frinedly yours,

Curtis
